

2026 Collection

Eco Nature is the UK's Leading Sustainable Greetings Brand

Here's what sets us apart:

Proudly British: Every item we offer is made in the UK, ensuring UK employment and a reduction in transportation emissions.

Commitment to being Plastic-Free:

Our entire product range is made without plastic materials.

Made Using Recycled Materials - All products are made using recycled materials, reflecting our commitment to responsible resource use and circularity.

Recyclable from Product to Packaging - From our products to our packaging, everything is fully recyclable.

Partnered with the Woodland Trust: Through this partnership we are helping to fund Woodland Trust free tree packs for UK schools and communities.

Eco Nature - Designed for Retail

Together with our retail partners, Eco Nature is shaping the future of sustainable gift packaging. Our UK manufacturing enables rapid response times, on-site production and zero sea-freight emissions, supporting a reduced carbon footprint.

As UK consumers increasingly choose more sustainable options, Eco Nature has already generated over £20 million in retail sales. To date, our customers have sold over 10 million Eco Nature bags and 16 million metres of Eco Nature roll wrap.

For 2026, Eco Nature is investing in the Woodland Trust's Free Trees for Schools and Communities Scheme, providing free tree packs to schools and community groups across the UK. This initiative increases tree cover and biodiversity, engages 5,700+ schools and communities, and delivers meaningful, real impact. Every product features a QR code directing consumers to www.econature.uk, showcasing Eco Nature's sustainability credentials and enabling authentic, engaging storytelling.

Our partnerships with leading UK retailers demonstrate Eco Nature's strong consumer appeal and reach. Retail partners can be featured on our online store locator and social media campaigns, increasing brand awareness and driving footfall.

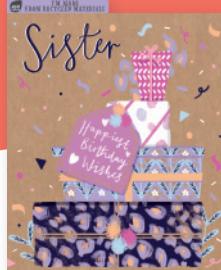

With a dedicated Brand & Marketing Manager, you'll also benefit from a full suite of digital assets and tailored marketing support across all platforms.
